

Hi to the California Triple Crown Ride Organizers, Team, and Cyclists,

After numerous discussions among the ride organizers of the California Triple Crown Stage Race (Deb Bowling from Planet Ultra who organizes the Mulholland Double, Brian Stark who organizes the Central Coast Double, and Dzung Dang who organizes the Carmel Valley Double), it was decided that it would be best to postpone the Stage Race to 2022.

With the smaller participation at the LIVE events, it was felt that it would be best to wait for 2022 so that there would be a decent field of people actually completing in the Stage Race.

Also, when riders are on the clock, they get super impatient at the Rest Stops making it difficult to stay socially distanced which is currently being required by the authorities in order to obtain permits.

Therefore, the California Triple Crown Stage Race will be postponed to 2022 and will consist of the Mulholland Double, the Central Coast Double, and the Carmel Valley Double.

It was also determined that it doesn't make sense to have a Stage Race with Virtual Double Centuries because then there would be not a level playing field since each Virtual Double is on a different course with different conditions and different support.

www.CalTripleCrown.com has been updated with the announcement.
